

# Data protection and publication rights for events organised by the Companions of St. Francis

The data collected with the registration form will be stored and processed for the planning of the event. It will not be passed on to third parties, except in special circumstances that require the data to be passed on to insurance companies or other authorities. On this form, you can choose whether your data may continue to be stored after the event for documentation purposes.

Photos or video recordings taken during the event may be used for publication on the website, in brochures or in newspaper articles. You can use this form to indicate whether and where photos in which you appear may be published.

We also expect participants at our events to respect the personal rights of all individuals and to obtain the express permission of the people featured in the images before publishing images or videos on the internet, WhatsApp, Facebook, Instagram or other media.

Please complete a separate form for each person taking part and send it with the registration form.

---

- Event:**       **International Chapter 2025 at Geldrop, the Netherlands**  
                   **International Pilgrimage 2025 at Rheinhessen, Germany**

**Please select an option:**

**My personal data from the registration form**

- may be stored and used by those responsible within the organisation for information, statistics and documentation until revoked.
- must be deleted 2 months after the event, provided that no insurance claim or similar has arisen, which is why the organisation is obliged to keep it for the time being.

**Please tick the permitted uses:**

**Photos and videos of the event in which I am recognisable may be used**

- for internal publications such as newsletters
- for external publications such as newspaper articles
- on the website of the Companions of St Francis
- on social media
